

SHAKEUP IS DUE
IN DEPARTMENTCommission May Be Created to
Enforce Food Laws.

PRESIDENT IS TO TAKE HAND

Taft Makes It Clear in Letter to
Secretary Wilson That He Has Not
Been Blind to Conditions in Agricul-
tural Department—Promises More
Radical Action for Future.Washington, Sept. 16.—Radical
changes in the method of enforcing
the pure food law and a general
shakeup in the agricultural depart-
ment, are considered as certain to fol-
low President Taft's decision in the
Wiley case, just made public.Although completely exonerating
Dr. Wiley from the charge against him
and letting off his associates, Doctors
Bigelow and Keble, with a general
reprimand, the president nevertheless
makes it clear in his letter to Secre-
tary Wilson that he is not blind to
conditions in the department which
imperatively demand action in the
near future. For, referring to the in-
quiry into the subject began by the
house committee on expenditures in
the agricultural department and not
concluded when congress adjourned,
Mr. Taft says:"The broader issues raised by the in-
vestigation, which have a much
weightier relation than this one to the
general efficiency of the department,
may require much more radical action
than the question I have considered
and decided."This statement is considered as particu-
larly significant, and is taken to
mean that the president intends to de-
vote his personal attention to the de-
partment when he comes back to
Washington in the fall, and that he
is determined to put an end to the
long existing feud that admittedly has
been a serious menace to the efficient
enforcement of the pure food law.

Has Been Aware of Conditions.

President Taft has been aware for
some time that conditions in the agri-
cultural department were not all that
they should be. He has known too, that
there was a Wiley faction and a Mc-
Cabe faction in the department and
that the best of feeling did not al-
ways prevail.It is generally believed that Solicitor
McCabe, the most active member of
the anti-Wiley faction, and Associate
Counsel Dunlap, who started all the
trouble for Dr. Wiley, will not re-
main much longer in the government
service.It has been suggested to President
Taft that he recommend the creation
of a commission to enforce the pure
food statute, just as the interstate
commerce commission is charged with
the duty of enforcing all statutes gov-
erning the operation of a railroad in
the United States. It is understood
that he is not unfavorable to the idea,
but has not committed himself with
respect to it, desiring more time to
consider all details in connection with
the practical working out of such a
proposition.Just where Dr. Wiley will land
after the cards have been shuffled for
the new deal is problematical.That the Remsen, or referee, board,
which was created by President
Roosevelt and which, for one reason
or another, has apparently enjoyed
neither the confidence nor support of
the public, will go out of business at
the close of the present fiscal year is
considered pretty certain, whether the
commission plan for enforcing the
food and drug act is adopted or not.
The board, as at present constituted
and operating, is extremely expensive
and very slow and even the high char-
acter and admitted integrity of its
membership has failed to save it from
caustic criticism.

BOTH SEEM TO BE SATISFIED

Secretary Wilson and Dr. Wiley Ex-
press Opinions.Traer, Ia., Sept. 16.—"I think that
President Taft has considered the so-
called Dr. Wiley case carefully, de-
cided it wisely and that his decision
will give general satisfaction through-
out the country."This was the statement of Secretary
Wilson of the department of agricul-
ture.Washington, Sept. 16.—Up in his
Blue Ridge mountain retreat, a farm
at Bluemont, where he spends his
spare time supervising his crops, Dr.
Wiley read the full text of the presi-
dent's opinion upholding Wiley's
course, but beyond saying it was a
complete vindication for him, the
chief chemist would make no com-
ment.

Postoffice Robbers Convicted.

Deadwood, S. D., Sept. 16.—George
Morgan and Elmer Dunning were
found guilty in the United States dis-
trict court here of robbing the post-
office at Smithwick, Fall River coun-
ty, last spring, when they secured
\$1,500 in cash and stamps. Judge El-
liott sentenced both to four years at
Leavenworth.Faith and hope themselves shall die,

Threatens to Make Break for the
Boundary in Message to Officers.Snowflake, Minn., Sept. 16.—The
thrilling man hunt which has engaged
this entire section, involving 1,000
armed men for three days in pursuit
of the man who kidnapped Miss
Gladys Price, a teacher, may be con-
cluded soon with tragic results.The fugitive is surrounded in a for-
est three miles from Snowflake by 500
armed men.They are so close on his track that
the last person he spoke to reported
to the posse within thirty minutes. He
is armed with a repeating shotgun and
is in a defiant mood. He told a mem-
ber of a threshing gang to whom he
spoke that the men following him
would better look out as he intended
to make a break for the United States
border and intended to get through.Every man in the posse is armed
and it seems impossible for him to
break through the line.The chain of evidence concerning
the man's identity was believed to
have been completed when the girl
positively identified a police photo-
graph of the man known to the Win-
nipeg police as Wesley Osborn as her
assailant. Identification was made
easy, the girl said, by a scar on the
face.Osborn was imprisoned at Winni-
peg several weeks ago as a vagrant.
He was mugged because he had a re-
volver in his possession. Apparently
this is the same man known in this vic-
inity as Henry Bill Wilson.He worked in the Hallisley brick
yard and told his employer he came
originally from Dubuque, Ia., where he
was raised. He came here, he said,
from Hanna, N. D. He is a blonde of
medium height, with a scar under the
left eye.Constable Chamberlain of the provin-
cial police brought in word that
several shots had been exchanged
with the fugitive besieged in the scrub
three miles east of the town.In spite of the close watch kept the
fugitive has visited Snowflake each
night and obtained food. He was seen
milking a cow in a pasture field at
noon, carrying a tin pail, but was a
mile away from a human being at the
time and when approached made off.

CUT WATCHMAN'S THROAT

Robbers Assault Aged Man at Milwau-
kee Brewery.Milwaukee, Sept. 16.—Albert Voll-
brecht, watchman at the Blatz brew-
ery, was attacked by masked robbers
and tied to a post in the stable for
eight hours before he released him-
self. He was then nearly dead. He is
seventy-three years old, and the rob-
bers, not satisfied with tying him
so that his toes barely touched the
ground, hacked at his neck with a
knife until they thought he was bleed-
ing to death.Two men have been arrested as
suspects, but Vollbrecht has not been
able to identify them. He may not re-
cover.

Three hundred and fifteen thousand
dollars was stolen from the branch of
the Bank of Montreal in this city.Five burglars entered the bank by
the front door, broke through the thin
metal coating of the vault, blew the
safe with charges of nitroglycerin and
got away with their booty without be-
ing seen, except by a Chinese care-
taker.They probably escaped by automo-
bile toward Vancouver, although they
may have taken a launch down the
Fraser river.There was in all \$350,000 in the
bank safes. They left only the silver
and notes of small denominations, be-
sides damaged bills, which they scat-
tered around the floor and tables in
one of the little compartments.

STRIKE SITUATION SERIOUS

Army May Be Employed to Quell Revo-
lutionary Disturbances.Madrid, Sept. 16.—The strike situa-
tion in Bilbao and throughout the
province of Biscay grows more alarm-
ing with each day's developments.
Matters have now been aggravated by
the depletion of the food supply and
the tieup of the transportation sys-
tem.Disturbances of a like character to
those which necessitated martial law
and the suspension of the constitution-
al guarantees in Bilbao are reported
with increasing frequency from the
southern provinces of Malaga and Se-
ville, as well as in the neighboring
province of Guipuzcoa.Premier Canalejas is credited with
saying that he will send the whole
army to repress the troubles if cir-
cumstances demand it. There are at
present 74,000 men serving with the colors
and available if the situation requires
wholesale measures of repression.

ATTACK RAILROAD RATES

transcontinental railroads to establish
from St. Paul, Minn., to Denver, Colo.,
class and commodity freight rates de-
clared by the interstate commerce
commission to be just and reasonable
from Mississippi river transfer points
to Denver, has induced an attack upon
the St. Paul rates before the commis-
sion.The complaint was made by the
Hendrie & Balthoff Manufacturing and
Supply company and the Moore Hard-
ware and Iron company of Denver. A
reduction of all rates to conform to
the commission's findings is requested.

SAVINGS BANKS SUCCESSFUL

This Will Lead to Many Other Efforts
at Legislation on Postoffice Affairs.
Letter From Postmaster General
Concerning Rates For Transporting
Mail in Demand, but Can't Be Had.By ARTHUR W. DUNN.
Washington, Sept. 16.—[Special.]—
Postal legislation of much importance
seems assured from the activity of
different men connected with the ser-
vice. The good results from postal sav-
ings banks is being made the basis of
urging other postal reforms.Chairman Bourne of the senate com-
mittee expects to take hold of the
parcels post bill immediately. In fact,
he has been looking up data since the
extra session closed and will have
everything ready to present a bill
when the regular session meets. The
house committee has already had its
hearings on this subject, while the ex-
penditures committee is laying the
foundation for several postal bills.

"House Goes 105"

On Aug. 14 the Congressional Rec-
ord announced among the executive
communications "a letter from the
postmaster general, submitting a re-
port of the results of the inquiry as to
the operation, receipts and expendi-
tures of railroad companies transport-
ing the mails and recommending leg-
islation on the subject (H. Doc. 105)
to the committee on postoffices and
post roads and ordered to be printed."
Ever since that date there have been
anxious inquiries at the document
rooms for "H. Doc. 105," but after a
month since its receipt it cannot be
obtained."The proof is being read at the post-
office department," inquirers are told.
It is this document upon which Post-
master General Hitchcock based his
assertion that \$9,000,000 could be
saved in the transportation of the
mails, and there are a lot of people
who want to see just how he figures
out the saving.

Promised Progress.

Both of the Virginia senators who
have been renominated, as well as
their opponents in the primaries, de-
clared themselves earnestly in favor
of progressive policies. During the
close of the last session of congress
Senator Martin became earnestly in
favor of the tariff measures presented
and said that congress ought to re-
main in session all summer in order to
pass the tariff bills.Senator Swanson has declared him-
self favorable to the nomination of
Governor Wilson for president, the
New Jersey governor being about the
most earnest progressive among the
Democratic possibilities. It is believed
that many so called conservative sena-
tors will be supporting progressive leg-
islation in the future.

Can Uncle Joe "Come Back?"

Of course Uncle Joe Cannon can be
elected to congress in the Danville
district as long as he lives. He has
become a habit with those Illinois
people. But the announcement that
he expects to be speaker if the Repub-
licans should gain control of the house
is most interesting, and the question
naturally arises as to whether the old
warhorse can "come back."What would become of Jim Mann,
who has made a very satisfactory mi-
nority leader? And can the Repub-
licans control the house without the
insurgents? These are questions
which the recent announcement causes.
The impression in Washington is that
Uncle Joe's late golf experience has
turned his head.

Waterway Terminals.

It was Herbert Knox Smith, com-
missioner of corporations, who, in a
very able manner, pointed out that
one reason why waterway traffic in
this country suffered was on account
of lack of terminals. This applied es-
pecially to inland waterways. Grad-
ually the idea is sinking in upon those
who have interested themselves in wa-
ter transportation and more particu-
larly those who are working for a
larger system of improvements by the
general government. The waterway
terminals on most of the rivers are
not such as to encourage water traffic.
States or municipalities will have to
take up the subject, for it is certain
the general government will not con-
struct terminals.

Texans Are Pleased.

Among the Texas members who in-
gled in Washington for several weeks
after the adjournment was Congress-
man Smith. He is an anti-Bailey man
and was well pleased when he heard
that Bailey had withdrawn from the
senatorial race."That will be welcome news to many
people in Texas," he said, "for they
are getting very tired of the Bailey
and anti-Bailey contest which has been
going on year after year."Congressman Smith thinks that
Bailey will make Washington his
home, as he is building a large resi-
dence here, but it is generally believed
that Bailey's retirement from politics
is permanent. That he will be missed
in the senate is conceded, for he was
always interesting. Strangely enough
he will be missed more by Republicans
than by his own party.

LUMBER FIRE LOSS
AT DULUTH \$100,000Damage to Mill and Yards Cov-
ered by Insurance.Duluth, Sept. 16.—One of the most
disastrous fires in Duluth for a year
ragged for four hours when the Scott-
Graft Lumber company's plant was al-
most entirely destroyed. The dam-
age is estimated at \$100,000 and is
fully covered by insurance.When the fire was discovered by a
watchman it was a small blaze on the
top of an engine room. It spread
rapidly to the planing mill and the
dry kilns, and before the fire com-
panies could reach the place the
flames had spread from one end of the
building to the other and threatened
to consume the whole plant, including
the mills on the water front and the
lumber yards.A general alarm was sent in and
every engine in the city and one from
Superior checked the flames. The de-
partment centered its efforts on sav-
ing the main building and the sash
and door factory. In the meantime
the sparks set fire to the lumber yard,
a block away.The company employs 250 men, who
will be turned out of work temporarily.
The plant will be rebuilt.

TRIAL PROBABLY SEPT. 19

Most Serious Offense That Could Be
Charged Against Dr. D

SHAKEUP IS DUE
IN DEPARTMENTCommission May Be Created to
Enforce Food Laws.

PRESIDENT IS TO TAKE HAND

Taft Makes It Clear in Letter to
Secretary Wilson That He Has Not
Been Blind to Conditions in Agricultural Department—Promises More
Radical Action for Future.

Washington, Sept. 16.—Radical changes in the method of enforcing the pure food law and a general shakeup in the agricultural department, are considered as certain to follow President Taft's decision in the Wiley case, just made public.

Although completely exonerating Dr. Wiley from the charge against him and letting off his associates, Doctors Bigelow and Kebler, with a general reprimand, the president nevertheless makes it clear in his letter to Secretary Wilson that he is not blind to conditions in the department which imperatively demand action in the near future. For, referring to the inquiry into the subject began by the house committee on expenditures in the agricultural department and not concluded when congress adjourned, Mr. Taft says:

"The broader issues raised by the investigation, which have a much weightier relation than this one to the general efficiency of the department, may require much more radical action than the question I have considered and decided."

This statement is considered as particularly significant, and is taken to mean that the president intends to devote his personal attention to the department when he comes back to Washington in the fall, and that he is determined to put an end to the long existing feud that admittedly has been a serious menace to the efficient enforcement of the pure food law.

Has Been Aware of Conditions.

President Taft has been aware for some time that conditions in the agricultural department were not all that they should be. He has known too, that there was a Wiley faction and a McCabe faction in the department and that the best of feeling did not always prevail.

It is generally believed that Solicitor McCabe, the most active member of the anti-Wiley faction, and Associate Chemist Dunlap, who started all the trouble for Dr. Wiley, will not remain much longer in the government service.

It has been suggested to President Taft that he recommend the creation of a commission to enforce the pure food statute, just as the interstate commerce commission is charged with the duty of enforcing all statutes governing the operation of a railroad in the United States. It is understood that he is not unfavorable to the idea, but has not committed himself with respect to it, desiring more time to consider all details in connection with the practical working out of such a proposition.

Just where Dr. Wiley will land after the cards have been shuffled for the new deal is problematical.

That the Remsen, or referee, board, which was created by President Roosevelt and which, for one reason or another, has apparently enjoyed neither the confidence nor support of the public, will go out of business at the close of the present fiscal year is considered pretty certain, whether the commission plan for enforcing the food and drug act is adopted or not. The board, as at present constituted and operating, is extremely expensive and very slow and even the high character and admitted integrity of its membership has failed to save it from caustic criticism.

Both seem to be satisfied.

Secretary Wilson and Dr. Wiley Express Opinions.

Traer, Ia., Sept. 16.—"I think that President Taft has considered the so-called Wiley case carefully, decided it wisely and that his decision will give general satisfaction throughout the country."

This was the statement of Secretary Wilson of the department of agriculture.

Washington, Sept. 16.—Up in his Blue Ridge mountain retreat, a farm at Bluemont, where he spends his spare time supervising his crops, Dr. Wiley read the full text of the president's opinion upholding Wiley's course, but beyond saying it was a complete vindication for him, the chief chemist would make no comment.

Postoffice Robbers Convicted.

Deadwood, S. D., Sept. 16.—George Morgan and Elmer Dunning were found guilty in the United States district court here of robbing the post-office at Smithwick, Fall River county, last spring, when they secured \$1,500 in cash and stamps. Judge Elliott sentenced both to four years at Leavenworth.

ASSAILANT OF
GIRL HEMMED INShots Are Exchanged Between
Fugitive and Posse.

GIRL IDENTIFIES PICTURE

Prisoner Has Broken Through Lines
of Posse on Several Occasions Despite Close Watch Being Kept.
Threatens to Make Break for the
Boundary in Message to Officers.

Snowflake, Minn., Sept. 16.—The thrilling man hunt which has engaged this entire section, involving 1,000 armed men for three days in pursuit of the man who kidnapped Miss Gladys Price, a teacher, may be concluded soon with tragic results.

The fugitive is surrounded in a forest three miles from Snowflake by 500 armed men.

They are so close on his track that the last person he spoke to reported to the posse within thirty minutes. He is armed with a repeating shotgun and is in a defiant mood. He told a member of a threshing gang to whom he spoke that the men following him would better look out as he intended to make a break for the United States border and intended to get through.

Every man in the posse is armed and it seems impossible for him to break through the line.

The chain of evidence concerning the man's identity was believed to have been completed when the girl positively identified a police photograph of the man known to the Winnipeg police as Wesley Osborn as her assailant. Identification was made easy, the girl said, by a scar on the face.

Osborn was imprisoned at Winnipeg several weeks ago as a vagrant. He was mugged because he had a revolver in his possession. Apparently this is the same man known in this vicinity as Henry Bill Wilson.

He worked in the Halliwell brick yard and told his employer he came originally from Dubuque, Ia., where he was raised. He came here, he said, from Hanna, N. D. He is a blonde of medium height, with a scar under the left eye.

Constable Chamberlain of the provincial police brought in word that several shots had been exchanged with the fugitive besieged in the scrub three miles east of the town.

In spite of the close watch kept the fugitive has visited Snowflake each night and obtained food. He was seen milking a cow in a pasture field at noon, carrying a tin pail, but was a mile away from a human being at the time and when approached made off.

CUT WATCHMAN'S THROAT

Robbers Assault Aged Man at Milwaukee Brewery.

Milwaukee, Sept. 16.—Albert Vollbrecht, watchman at the Blatz brewery, was attacked by masked robbers and tied to a post in the stable for eight hours before he released himself. He was then nearly dead. He is seventy-three years old, and the robbers, not satisfied with tying him so that his toes barely touched the ground, hacked at his neck with a knife until they thought he was bleeding to death.

Two men have been arrested as suspects, but Vollbrecht has not been able to identify them. He may not recover.

Alleged Head of Swindling Band Must
Furnish Record Bond.

Chicago, Sept. 16.—The bond of S. A. Potter, charged by the United States secret service men with being the head of the chief gang of confidence men in the country, has been fixed at \$150,000.

This unusual bond was designated at the request of C. A. de Woody, division superintendent of justice, who represented that Potter had jumped a bond of \$22,000 while awaiting trial at Philadelphia a year ago.

Tokio, Sept. 16.—Admiral Count Togo returned from his trip to England and the United States.

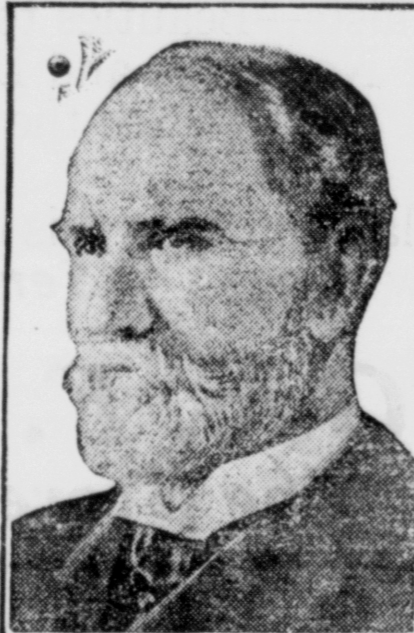

He said he was deeply impressed with the cordiality of the people of the United States.

The newspapers reflected his impressions in editorials expressing gratitude to the Americans.

Secretary Fisher Inspects Dam.

Boise, Ida., Sept. 16.—W. L. Fisher, secretary of the interior, left Boise for Arrow Rock dam, where the government is engaged in impounding the waters of the Boise river for the Payette-Boise irrigation project. A party of engineers accompanied him. The entire party probably will remain in that district until Sunday, when Secretary Fisher plans to visit the project at Mindoka.

New Westminster, B. C., Sept. 16.—Three hundred and fifteen thousand dollars was stolen from the branch of the Bank of Montreal in this city.

Five burglars entered the bank by the front door, broke through the thin metal coating of the vault, blew the safe with charges of nitroglycerin and got away with their booty without being seen, except by a Chinese caretaker.

They probably escaped by automobile toward Vancouver, although they may have taken a launch down the Fraser river.

There was in all \$350,000 in the bank safe. They left only the silver and notes of small denominations, besides damaged bills, which they scattered around the floor and tables in one of the little compartments.

STRIKE SITUATION SERIOUS

Army May Be Employed to Quell
Revolutionary Disturbances.

Madrid, Sept. 16.—The strike situation in Bilbao and throughout the province of Biscay grows more alarming with each day's developments. Matters have now been aggravated by the depletion of the food supply and the tieup of the transportation system.

Disturbances of a like character to those which necessitated martial law and the suspension of the constitutional guarantees in Bilbao are reported with increasing frequency from the southern provinces of Malaga and Seville, as well as in the neighboring province of Gulpuzcoa.

Premier Canalejas is credited with saying that he will send the whole army to repress the troubles if circumstances demand it. There are at present 74,000 men serving with the colors and available if the situation requires wholesale measures of repression.

ATTACK RAILROAD RATES

Denver Merchants Appeal to Commerce
Commission.

Washington, Sept. 16.—Refusal of transcontinental railroads to establish from St. Paul, Minn., to Denver, Colo., class and commodity freight rates declared by the interstate commerce commission to be just and reasonable from Mississippi river transfer points to Denver, has induced an attack upon the St. Paul rates before the commission.

The complaint was made by the Hendrie & Balhoff Manufacturing and Supply company and the Moore Hardware and Iron company of Denver. A reduction of all rates to conform to the commission's findings is requested.

Postmaster General Hitchcock Consents
to Trial.

Washington, Sept. 16.—Not to be outdone by the British postal authorities in the carrying of mails by aeroplane Postmaster General Hitchcock has given his consent to the establishment of an experimental air mail route between one of the outlying branches of the Brooklyn (N. Y.) postoffice and the aeroplane at Nassau boulevard, Long Island, during the international aviation meet, which will be held there from Sept. 27 to Oct. 3.

Run Down by Train.

Keokuk, Ia., Sept. 16.—John Noyes, twenty-two years old, son of Dr. Edmund Noyes of Evanston, Ill., was run down by a construction train here and died at a hospital. Noyes, who was a graduate of the engineering department of Dartmouth, was employed by the Mississippi Power company.

SAVINGS BANKS SUCCESSFUL

This Will Lead to Many Other Efforts
at Legislation on Postoffice Affairs.
Letter From Postmaster General
Concerning Rates For Transporting
Mail In Demand, but Can't Be Had.

By ARTHUR W. DUNN.
Washington, Sept. 16.—[Special.]—Postal legislation of much importance seems assured from the activity of different men connected with the service. The good results from postal savings banks is being made the basis of urging other postal reforms.

Chairman Bourne of the senate committee expects to take hold of the parcels post bill immediately. In fact, he has been looking up data since the extra session closed and will have everything ready to present a bill when the regular session meets. The house committee has already had its hearings on this subject, while the expenditures committee is laying the foundation for several postal bills.

"House Dog 125"

On Aug. 14 the Congressional Record announced among the executive communications "a letter from the postmaster general, submitting a report of the results of the inquiry as to the operation, receipts and expenditures of railroad companies transporting the mails and recommending legislation on the subject (H. Doc. 105) to the committee on postoffices and post roads and ordered to be printed." Ever since that date there have been anxious inquiries at the document rooms for "H. Doc. 105," but after a month since its receipt it cannot be obtained.

"The proof is being read at the post office department," inquirers are told. It is this document upon which Postmaster General Hitchcock based his assertion that \$9,000,000 could be saved in the transportation of the mails, and there are a lot of people who want to see just how he figures out the saving.

Promised Progress.

Both of the Virginia senators who have been renominated, as well as their opponents in the primaries, declared themselves earnestly in favor of progressive policies. During the close of the last session of congress Senator Martin became earnestly in favor of the tariff measures presented and said that congress ought to remain in session all summer in order to pass the tariff bills.

Senator Swanson has declared himself favorable to the nomination of Governor Wilson for president, the New Jersey governor being about the most earnest progressive among the Democratic possibilities. It is believed that many so called conservative senators will be supporting progressive legislation in the future.

Can Uncle Joe "Come Back?"

Of course Uncle Joe Cannon can be elected to congress in the Danville district as long as he lives. He has become a habit with those Illinois people. But the announcement that he expects to be speaker if the Republicans should gain control of the house is most interesting, and the question naturally arises as to whether the old warhorse can "come back."

What would become of Jim Mann, who has made a very satisfactory minority leader? And can the Republicans control the house without the insurgents? These are questions which the recent announcement causes. The impression in Washington is that Uncle Joe's late golf experience has turned his head.

Waterway Terminals.

It was Herbert Knox Smith, commissioner of corporations, who, in a very able manner, pointed out that one reason why waterway traffic in this country suffered was on account of lack of terminals. This applied especially to inland waterways. Gradually the idea is sinking in upon those who have interested themselves in water transportation and more particularly those who are working for a larger system of improvements by the general government. The waterway terminals on most of the rivers are not such as to encourage water traffic. States or municipalities will have to take up the subject, for it is certain the general government will not construct terminals.

Among the Texas members who lingered in Washington for several weeks after the adjournment was Congressman Smith. He is an anti-Bailey man and was well pleased when he heard that Bailey had withdrawn from the senatorial race.

"That will be welcome news to many people in Texas," he said, "for they are getting very tired of the Bailey and anti-Bailey contest which has been going on year after year."

Congressman Smith thinks that Bailey will make Washington his home, as he is building a large residence here, but it is generally believed that Bailey's retirement from politics is permanent. That he will be missed in the senate is conceded, for he was always interesting. Strangely enough he will be missed more by Republicans than by his own party.

LUMBER FIRE LOSS
AT DULUTH \$100,000Damage to Mill and Yards Covered
by Insurance.

Duluth, Sept. 16.—One of the most disastrous fires in Duluth for a year raged for four hours when the Scott Graft Lumber company's plant was almost entirely destroyed. The damage is estimated at \$100,000 and is fully covered by insurance.

When the fire was discovered by a watchman it was a small blaze on the top of an engine room. It spread rapidly to the planing mill and the dry kilns, and before the fire companies could reach the place the flames had spread from one end of the building to the other and threatened to consume the whole plant, including the mills on the water front and the lumber yards.

A general alarm was sent in and every engine in the city and one from Superior checked the flames. The department centered its efforts on saving the main building and the sash and door factory. In the meantime the sparks set fire to the lumber yard, a block away.

The company employs 250 men, who will be turned out of work temporarily. The plant will be rebuilt.

REVOLVER SHOT IS FATAL

Examining Weapon When Discharge
Occurred.

St. Paul, Sept. 16.—Oscar Jacobson, boarding at the Hampden House, in the Midway district, was accidentally shot and killed.

A man giving the name of Axel Orison, Jacobson's roommate, is being held until details of the shooting can be obtained by the police.

Both are laboring men, middle aged, and their place of employment could not be learned.

All the police could get from Orison was that he and Jacobson were examining a revolver and that it had been discharged in some way, he either did not know how or would not tell, and that Jacobson had been killed.

Nonegarian on Long Walk.

Stillwater, Okla., Sept. 16.—On his way from Pocatello, Ida., to Austin, Tex., to see his three children before he dies Marcus Goff, ninety-six years old, arrived here. Goff is a veteran of the Mexican and Civil wars and took part in a number of campaigns against Western Indians. Goff says he is walking thirty-three miles a day. His "children" are seventy, sixty-five and sixty years old, respectively.

Mysteriously Disappears.

Madison, Wis., Sept. 16.—"I am going to take the short route." Leaving this message to his wife Carl W. Heyl, a traveling salesman, disappeared Wednesday night and his coat and hat were found in a rowboat on Lake Mendota, near the state hospital, Thursday afternoon. The police believe, it is said, that Heyl did not commit suicide.

Pioneer Kills Himself.

Wheaton, Minn., Sept. 16.—Ole H. Larson, a leading pioneer farmer of Traverse county, committed suicide by shooting himself through the heart. He placed a shotgun against a tree and then tied a string to the hammer and put the barrel against his breast, when he pulled the trigger. He is survived by a widow and four children. The cause of his act is not known.

Delay in Parole Hearings.

Fort Leavenworth, Kan., Sept. 16.—Hearing of the parole cases of John R. Walsh of Chicago and twelve other bankers, which was scheduled to be taken up by the parole board at the federal prison here, has been postponed until Sept. 25.

Former President Questions Juvenile
Offenders in New York.

New York, Sept. 16.—Former President Theodore Roosevelt sat for a time on the bench at the Children's court in Manhattan, questioned many of the youthful delinquents and told one of them that what he needed was "a good spanking, and I'd like to give it to you." When he left he declared he had "had a delightful time; bully time."

Mr. Roosevelt sat beside Judge Franklin C. Hoyt, a personal friend. He asked more questions than the judge asked and appeared greatly interested in the youths.

Minnesota Institutions Had a Profitable
Month.

St. Paul, Sept. 16.—During the month of August state institutions earned \$60,195.86, which has just been deposited with the treasurer.

The hemp and twine plant at the state prison led with receipts aggregating \$25,843.43.

RUPTURE SEEMS IMMINENT

Opinion of Head of Southern Pacific
Bureau of Economics.

San Francisco, Sept. 16.—According to F. G. Ahearn, head of the bureau of economics of the Southern Pacific railroad, important developments in the disagreement between the officials of the Harriman lines and the shopmen's federation are expected.

J. W. Kline, the president of the International Blacksmiths' union and spokesman for the shopmen, is expected to arrive in Chicago shortly. His mission, according to local leaders, is to serve an ultimatum on Julius Kruttschnitt, vice president of the Harriman lines, demanding the recognition of the federation of shop employees.

Risks Life to Save Family.

Grafton, Ia., Sept. 16.—With the other members of the family trapped on an upper floor, C. A. Lubins, president of the Bank of Grafton, dashed down a burning stairway in his home and gave the alarm. He was badly burned. The others were rescued by means of ladders. The house was destroyed.

Attempted Arson in Third Degree
Is the Charge.

TRIAL PROBABLY SEPT. 19

Most Serious Offense That Could Be Charged Against Dr. Dumas as Result of Conspiracy to Rob and Burn Puposky Postoffice Has Maximum Penalty of Three and One-half Years' Imprisonment.

Benidji, Minn., Sept. 16.—"Attempted arson in the third degree," reads the indictment of the Beltrami county grand jury returned against Dr. D. F. Dumas, mayor of Cass Lake.

Although the maximum penalty on this charge is but three and one-half years it is the most serious offense that can be charged as a result of Dr. Dumas' alleged conspiracy to rob and burn the postoffice and general store building at Puposky on the night of June 16 last, when Martin Behan and Mike Davis were fired upon and Behan was captured. Dr. Dumas was arrested the next day in Hibbing for complicity in the crime.

Dr. Dumas was arraigned before Judge C. W. Stanton, but his attorneys, Judge Marshall Spooner and A. A. Andrews, waived a reading of the indictment and requested that the prisoner be given until morning to prepare a plea and the request was granted.

When the Cass Lake mayor is again arraigned a plea of not guilty, it is said, will be entered in his behalf and the date for trial will be determined. It is admitted by both the state and the defendant's attorneys that the probable date for the beginning of the trial will be Tuesday, Sept. 19.

There is a possibility that the case will not be tried here. While the state has expressed its willingness to proceed in Beltrami county the attorneys for the defense have not said they would not ask for a change of venue. On this point Judge Spooner remains uncertain.

It is generally understood that other indictments were returned against Dr. Dumas, and that other persons are to become involved in the charges, as the grand jury presented four documents to the court. All, however, are kept secret with the exception of the one indictment on which Dr. Dumas was arraigned.

Following his arraignment in court Dr. Dumas held a short consultation with his attorneys and later left for Cass Lake to spend the night with his wife and little son. His father is not here, but is expected to be at his son's side during the trial.

DULUTH ATTACKS FLOUR RATE

Will File Complaint With Interstate
Commerce Commission.

Duluth, Sept. 16.—The traffic commission of the Duluth Commercial club is preparing a complaint to be filed with the interstate commerce commission in a few days, attacking the lake and rail rate of 18 cents per 100 pounds on flour from Duluth to New York, and asking that a reduction be made to 16½ cents, thus maintaining the differential of 5 cents which has existed under the Minneapolis rate.

The action is the result of the recent publication by the Twin City-Duluth railroad lines of a rate of 21½ cents from Minneapolis to New York and other Atlantic seaports.

BIG BILLS IN ROBBERS' LOOT

Believed Canadian Safe Blowers Will
Be Detected Thereby.

New Westminster, B. C., Sept. 16.—The three robbers who took \$315,000 from the Bank of Montreal's local branch and thereby perpetrated the largest successful safe blowing in cash recorded in America, are believed to be hiding in Vancouver, B. C., and small chances of disposing of their booty undetected. Bank officials assert that all the bills taken by the bandits were new and mostly of large denomination, and that their serial numbers are recorded at the bank. The gold taken cannot be traced so directly.

GOODWIN REPORTED MARRIED

Marjorie Rambeau Is Said to Be Naïf's
Fifth Choice.

Los Angeles, Cal., Sept. 16.—A report is current here that Nat Goodwin, the actor, has married Marjorie Rambeau, who was playing in the company with which Goodwin was associated until two weeks ago.

The report found ready credence among close friends of Goodwin, who hastened to congratulate him—but were unable to find him.

Files for Senate Nomination.

St. Paul, Sept. 16.—First to file for office under provisions of the Keefe bill passed at the last session of the Minnesota legislature providing for election of United States senators by direct vote Daniel W. Lawler, former mayor of St. Paul, has entered the race for the Democratic nomination, subject to the action of the primaries Sept. 17, 1912.

A radiator leaked and it became necessary to jack up the hind wheel in order to crank the front end. The auto made Brainerd on three wheels and a rim, but through it all the calm, beatific temperament of Mr. Vaughn never emitted a single cuss word.

FINE VEGETABLES ARE ON DISPLAY

George A. Keene and James M. Elder Gathering Samples for N. P. Display Car

MRS ANGUS MURRAY'S EXHIBIT

Her Display of Farm Produce at Citizens State Bank is a Most Remarkable One

George A. Keene and James M. Elder, the committee appointed by the Commercial club to get up an exhibit of Crow Wing county produce to be exhibited by the Northern Pacific railway in its display car at St. Paul, are meeting with much success. The committee knows that the way to get samples from a farmer is to go after the farmer.

At Mr. Keene's office are huge cabbages grown by John Sandgren of Crow Wing township; apples given by Prof. J. A. Wilson; Minnesota No. 13 corn grown by Leslie Jack in section 36-43-32; onions and other produce from other farmers. Vegetables are being added daily to the collection and the exhibit boomed by the Northern Pacific railway company will do much to benefit the county.

An exhibit of Crow Wing county vegetables excellent anything seen at the state fair is that of Mrs. Angus Murray on exhibition at the Citizens State bank. The vegetables were grown on the Murray farm in Oak Lawn township east of Brainerd. Stacked up on the table and seats in the private room of the bank are huge cabbages weighing 30 pounds; baskets of large, rosy tomatoes; gigantic potatoes; sugar beets, white carrots and pie pumpkins; a pumpkin weighing 50 pounds; ears of White Dent corn and squash; and a nangel three feet long.

The readers of this paper will be pleased to learn that there is at least one deadly disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

A HUNTING STORY

Hunters Placing Horse in Deserted Barn Claim a Man Levelled a Gun at Them

A. A. Miller and a Mr. Jefferson while out on a hunting trip near Bay Lake came upon what they claim was a deserted barn and placed their horse in it while they followed the festive prairie chicken. While they were gone they claim that Frank Norcross, who states he is the custodian of the Woodworth property, took the horse as an estray to his own farm and then demanded charges for keeping him when the hunters traced the animal.

The discussion grew so warm that Norcross is alleged to have levelled a gun at the nimrods when they attempted to take the horse without paying any charges. In the end they got the horse and Miller went to Brainerd to get out a warrant against Norcross. He was referred back to the township where the trouble is said to have originated.

He saw Olson Skau and a warrant was drawn up wherein Miller claimed that Norcross had pointed a gun loaded with powder and ball at him. Constable Rutgers left his threshing go and spent a weary day trying to find Norcross. Olson Skau stopped his painting job on the school house and brushed up his temporary court house at his home and waited all day for his case to come off. So far nothing further has been heard from the seat of war and Deerwood is anxiously holding its ear to the ground for any earthquake rumblings.

Special Notice

The annual business meeting of the First Congregational church will be held the 28th of this month (Thursday). Will the members of the church and congregation kindly book the date.

STEEL TRUST MAN ON CUYUNA RANGE

George A. Fay, Prominent Representative of U. S. Steel Corporation, Visits Crosby

SPENDS FIVE DAYS ON RANGE

Camp for 150 Men Built Near Station—Will Work on Sewer and Water System

Crosby, Minn., Sept. 15.—George A. Fay, of Duluth, the representative of the United States Steel corporation was at Crosby last Saturday and during the week and spent five days examining exploration and mining work on the Cuyuna iron range. He returned to Duluth Wednesday afternoon. When a prominent mining man like Mr. Fay devotes so much of his valuable time to the range it would indicate that there is to be some developments on the part of the steel company looking to the acquisition of lands on the range, as well as the changing of ownership of developed properties.

A camp suitable for housing 150 men has been built near the depot and work has commenced on the sewer and water contracts in Crosby. The system to be installed is of a most extensive and costly nature and must be finished before December first.

The walls of the Young cement building are in position and the contractor is waiting for angle bars.

Miss Ina Frenette has resumed her place as a teacher at Little Falls, where she is a first grade teacher. She was accompanied to Little Falls by her sisters, Miss Edith Frenette, who will attend school there.

The depot is now finished with the exception of a little painting and some varnishing.

Mr. and Mrs. L. C. Murdock, of St. Paul, are new residents of Crosby. Mr. Murdock proposes to install a credit bureau in the town and to cover most of the Cuyuna range. He will give reports on the financial standing of the residents of the range.

Dr. and Mrs. A. C. Bosel have returned from a visit at St. Paul.

The Rogers, Brown Ore Co. is removing its main offices from Deerwood to Crosby and will occupy the second floor of the First National bank building which is nearing completion. The rooms have been nicely arranged for the mining company and are marvellous of convenience and comfort.

Supt. H. J. Kruse is about ready to remove to his new home on Serpent lake at the southwest end of the lake. Many of the clerks have cottages in Crosby and as a matter of fact all will reside in Crosby. General Manager Chester D. Tripp has a beautiful residence on the lake shore a short distance east of Cross avenue.

Victor Wadsten and John Nygord have completed their houses in Lake View addition.

Mrs. Will S. Pitt is visiting relatives in Oelwein, Iowa.

Miss Leila Pitt is attending Lenox college at Hopkins, Iowa.

Charles Lindquist and William Compton have purchased lots in Lake View addition and expect to build soon.

Mrs. F. A. Lindbergh is visiting relatives at Park Rapids.

Contractor Gustad has the basement of the school completed.

The Palace restaurant celebrated its grand opening Wednesday evening and Arthur Lovdahl, pianist, and L. C. Murdock, violinist, furnished the music.

The recent school census shows 220 school children in district No. 51.

The village council met Tuesday evening and considered an ordinance relating to street signs. They also allowed a number of bills.

E. G. Ingalls, of the Ingalls Motor Boat Co., went to Coleraine his former home, on Thursday morning to enjoy a short vacation.

Editor Bailey, wife and daughter, have returned from a visit at California.

Owed to the Summer

When your head is dizzy, and the air is read

With the size of summer, and the brain seems dead,

There's a way to conquer all the hot air ills,

But it's not ice water with the freeze that kills;

It's the glass of lager only cellar cold,

With its bracing vigor and its worth untold,

It is filled with flavor, with a tang that cheers—

Here's a health to the purest—golden grain belt beers.

Miss Frances Quinn on Leaving For School is Given a Surprise Party By Her Friends

Miss Frances Quinn was pleasantly surprised at her home on South Broadway last evening by thirty of her young friends. The evening was spent in games and other amusements and a dainty luncheon was served. At an opportune moment the young people presented her with a handsome hand bag.

The whole assemblage escorted her to the midnight train and said their farewells. Miss Quinn goes to school at Spokane, Wash., and all regret that she is leaving Brainerd for some time.

Rev. E. Bratzel Takes Charge of Pastorate of German Evangelical Bethlehem Congregation

Rev. E. Bratzel is the new minister of the German Evangelical Bethlehem congregation and will hold his first services at the meeting place of the congregation in the Swedish Methodist church near the East Brainerd bridge on Sunday morning at ten o'clock. Sunday school will be held after the church services.

The new minister has been traveling secretary of the home missionary board in the western states and covered Oregon, Washington, Idaho and other states. He is now placed in charge of Brainerd and Little Falls which the governing board of the church has designated as one mission charge. The minister is residing with Herman Weidemann at 617 North Seventh street. He is a very pleasant and energetic man and will devote all his attention to making the Brainerd church grow.

The services Sunday morning will be in German. It is a sort of coincidence that Rev. Paul A. Weiss, who was formerly at Brainerd, goes to a church which Rev. Bratzel organized namely the congregation at Everett, Wash., while Rev. Bratzel comes to a mission which Rev. Weiss was instrumental in organizing and fostering.

FINE VEGETABLES ARE ON DISPLAY

MRS. ANGUS MURRAY'S EXHIBIT
Her Display of Farm Produce at Citizens State Bank is a Most Remarkable One

George A. Keene and James M. Elder, the committee appointed by the Commercial club to get up an exhibit of Crow Wing county produce to be exhibited by the Northern Pacific railway in its display car at St. Paul, are meeting with much success. The committee knows that the way to get samples from a farmer is to go after the farmer.

At Mr. Keene's office are huge cabbages grown by John Sandgren of Crow Wing township; apples given by Prof. J. A. Wilson; Minnesota No. 13 corn grown by Leslie Jack in section 36-43-32; onions and other produce from other farmers. Vegetables are being added daily to the collection and the exhibit boomed by the Northern Pacific railway company will do much to benefit the county.

An exhibit of Crow Wing county vegetables, including anything seen at the state fair is that of Mrs. Angus Murray on exhibition at the Citizens State bank. The vegetables were grown on the Murray farm in Oak Lawn township east of Brainerd.

Stacked up on the table and seats in the private room of the bank are huge cabbages weighing 30 pounds; baskets of large, rosy tomatoes; gigantic potatoes; sugar beets, white carrots and pie pumpkins; a pumpkin weighing 50 pounds; ears of White Dent corn and squash; and a nangel three feet long.

Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. A HUNTING STORY

Hunters Placing Horse in Deserted Barn Claim a Man Levelled a Gun at Them

A. A. Miller and a Mr. Jefferson while out on a hunting trip near Bay Lake came upon what they claim was a deserted barn and placed their horse in it while they followed the festive prairie chicken. While they were gone they claim that Frank Norcross, who states he is the custodian of the Woodward property, took the horse as an estray to his own farm and then demanded charges for keeping him when the hunters traced the animal.

The discussion grew so warm that Norcross is alleged to have levelled a gun at the nimrods when they attempted to take the horse without paying any charges. In the end they got the horse and Miller went to Brainerd to get out a warrant against Norcross. He was referred back to the township where the trouble is said to have originated.

He saw Olson Skau and a warrant was drawn up wherein Miller claimed that Norcross had pointed a gun loaded with powder and ball at him. Constable Rutgers left his threshing go and spent a weary day trying to find Norcross. Olson Skau stopped his painting job on the school house and brushed up his temporary court house at his home and waited all day for his case to come off. So far nothing further has been heard from the seat of war and Deerwood is anxiously holding its ear to the ground for any earthquake rumblings.

Special Notice

The annual business meeting of the First Congregational church will be held the 28th of this month (Thursday). Will the members of the church and congregation kindly book the date.

STEEL TRUST MAN ON CUYUNA RANGE

George A. Fay, Prominent Representative of U. S. Steel Corporation, Visits Crosby

SPENDS FIVE DAYS ON RANGE
Camp for 150 Men Built Near Station—Will Work on Sewer and Water System

Crosby, Minn., Sept. 15—George A. Fay, of Duluth, the representative of the United States Steel corporation was at Crosby last Saturday and during the week and spent five days examining exploration and mining work on the Cuyuna iron range. He returned to Duluth Wednesday afternoon. When a prominent mining man like Mr. Fay devotes so much of his valuable time to the range it would indicate that there is to be some developments on the part of the steel company looking to the acquisition of lands on the range, as well as the changing of ownership of developed properties.

A camp suitable for housing 150 men has been built near the depot and work has commenced on the sewer and water contracts in Crosby. The system to be installed is of a most extensive and costly nature and must be finished before December first.

The walls of the Young cement building are in position and the contractor is waiting for angle bars.

Miss Ina Frenette has resumed her place as a teacher at Little Falls, where she is a first grade teacher. She was accompanied to Little Falls by her sisters, Miss Edith Frenette, who will attend school there.

The depot is now finished with the exception of a little painting and some varnishing.

Mr. and Mrs. L. C. Murdock, of St. Paul, are new residents of Crosby. Mr. Murdock proposes to install a credit bureau in the town and to cover most of the Cuyuna range. He will give reports on the financial standing of the residents of the range.

Dr. and Mrs. A. C. Bosel have returned from a visit at St. Paul.

The Rogers, Brown Ore Co. is removing its main offices from Deerwood to Crosby and will occupy the second floor of the First National bank building which is nearing completion. The rooms have been nicely arranged for the mining company and are marvels of convenience and comfort. Supt. H. J. Kruse is about ready to remove to his new home on Serpent lake at the southwest end of the lake. Many of the clerks have cottages in Crosby and as a matter of fact all will reside in Crosby. General Manager Chester D. Tripp has a beautiful residence on the lake shore a short distance east of Cross avenue.

Victor Wadsten and John Nygard have completed their houses in Lake View addition.

Mrs. Will S. Pitt is visiting relatives in Oelwein, Iowa.

Miss Leila Pitt is attending Lenox college at Hopkins, Iowa.

Charles Lindquist and William Compton have purchased lots in Lake View addition and expect to build soon.

Mrs. F. A. Lindbergh is visiting relatives at Park Rapids.

Contractor Gustad has the basement of the school completed.

The Palace restaurant celebrated its grand opening Wednesday evening and Arthur Lovdahl, pianist, and L. C. Murdock, violinist, furnished the music.

The recent school census shows 220 school children in district No. 51.

The village council met Tuesday evening and considered an ordinance relating to street signs. They also allowed a number of bills.

E. G. Ingalls, of the Ingalls Motor Boat Co., went to Coleraine his former home, on Thursday morning to enjoy a short vacation.

Editor Bailey, wife and daughter, have returned from a visit at California.

Owed to the Summer

When your head is dizzy, and the air is read
With the size of summer, and the brain seems dead,
There's a way to conquer all the hot air ills,
But it's not ice water with the freeze that kills;
It's the glass of lager only cellar cold,
With its bracing vigor and its worth untold,
It is filled with flavor, with a tang that cheers—
Here's a health to the purest—golden grain belt beers.

ALL YOU NEED IS A CASCARET TONIGHT

No Sick Headache, Bilious Stomach, Coated Tongue or Constipated Bowels by Morning

Turn the rascals out—the headache, the biliousness, the indigestion, the sick, sour stomach and foul gases—turn them out tonight and keep them out with Cascarets. Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse and regulate your stomach; remove the sour, undigested and fermenting food and that misery-making gas; take the excess bile from your liver and carry out of the system all the decomposed waste matter and poison in the intestines and bowels. Then you will feel great.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head and cheerfulness for months. Children love to take Cascarets because they taste good—never gripe or sicken.

Origin of the Census.
The census probably had its origin in Rome. The term comes from the high officer called censor, whose duty it was, among other things, to enumerate the people. The Roman census must have been minute and full, since it indicated not only the number of the people, but their respective classes, domestic positions, wealth, etc. It seems that the Roman census was taken about every fifth year. The first effort to take a census in Great Britain was made in 1801, but it did not extend to Ireland. The first census ever taken in the United States was in the year 1790, since which time it has been taken regularly every ten years.

Trans-Atlantic Cable Business

Traffic Chart of Western Union, Anglo-American and Direct U. S. Cable Business, Showing Capacity of the Cables and the Proportion Now Utilized.

Proposed Modification of Existing Arrangements

A provisional modification of an arrangement which has existed for many years has been reached between the Western Union Telegraph Company, The Anglo-American Cable Company and the Direct U. S. Cable Company, under which the cable systems of these companies now worked exclusively in business connection with each other, but operated and maintained separately, will be operated in direct physical connection with each other and with the Western Union land system.

Two objects are to be attained by this arrangement:

First, more efficient and economical operation.

Second, the introduction of new forms of service to the advantage of the public.

The Trans-Atlantic Cable Situation and Competition

The trans-Atlantic cable situation is as follows:

The Mackay group of seven cables, including the German cables, owned by or worked in physical connection with the telegraph lines of that company form one system.

The French cables comprise an independent system, using both the Western Union and the Mackay land lines for their United States connection.

In competition with these is the Western Union group of cables, eight in all, owned by three separate companies, two of which are British companies owning five of the eight cables.

Two only of the British owned cables terminate in the United States and all of them are entirely dependent on the Western Union for their connection with any telegraph system, or for their reaching any centre of business, and are now worked exclusively, so far as business is concerned, with the Western Union.

Efficiency Increased, Waste Prevented

The proposed arrangement between the Western Union, the Anglo-American and the Direct U. S. companies will bring the eight cables of the three companies under one operating control. The consequent increase in effectiveness and economy will place the Western Union in a position to offer certain advantages in cable service not now enjoyed by the public.

The other way open to enable the Western Union to make such improvements and introduce such new services as it proposes to do, would be to lay new cables. This would seem to be the height of folly. Duplication of the existing trans-Atlantic cable facilities, at a cost of many millions, when there are more than ample facilities for all business, would put an unnecessary financial burden upon an already fully burdened business and would probably postpone the reduction of rates or introduction of new services.

Limited Business Hours and Idle Facilities

As at present carried on, the trans-Atlantic cable business is practically all flash service, i. e. instantaneous. Owing to the difference in time, there are only a few business hours of the day common to both sides and during these hours at least 75% of the cable business is done. This is demonstrated by the accompanying chart.

In the interests of international business nothing should be done to interfere in any way with the so-called flash or instantaneous service, and the lines should be kept clear to accommodate such messages during the few business hours common to both countries; but to continue to confine the cables to this class of service, as at present, will utilize only about 25% of the existing capacity of millions of property and places on that limited service all the capital, maintenance and operating charges.

The limited time and the character of the business, if best results are to

Evidence on the following subject will prove of interest to every Brainerd reader. So many people go through the same experience daily. This public statement should be proof positive to every wavering doubter. Read it carefully.
Charles Ellison, 512 S. Quince St., Brainerd, Minn., says: "My kidneys were disordered for several years and as time passed, my condition grew worse. About a year ago I was suddenly taken with such a severe pain in the small of my back that I had to stop work and go to bed. Medicine relieved me somewhat and I got out in a few weeks, but I still suffered severely. Someone finally advised me to try Doan's Kidney Pills and I procured a supply from a local drug store. The contents of a few boxes restored me to good health and corrected all the symptoms of my complaint. I am confident that Doan's Kidney Pills will act just as satisfactorily in other cases of kidney trouble." (Statement given September 1, 1908.)

The French cables comprise an independent system, using both the Western Union and the Mackay land lines for their United States connection.

Two only of the British owned cables terminate in the United States and all of them are entirely dependent on the Western Union for their connection with any telegraph system, or for their reaching any centre of business, and are now worked exclusively, so far as business is concerned, with the Western Union.

Efficiency Increased, Waste Prevented

The proposed arrangement between the Western Union, the Anglo-American and the Direct U. S. companies will bring the eight cables of the three companies under one operating control. The consequent increase in effectiveness and economy will place the Western Union in a position to offer certain advantages in cable service not now enjoyed by the public.

The other way open to enable the Western Union to make such improvements and introduce such new services as it proposes to do, would be to lay new cables. This would seem to be the height of folly. Duplication of the existing trans-Atlantic cable facilities at a cost of many millions, when there are more than ample facilities for all business, would put an unnecessary financial burden upon an already fully burdened business and would probably postpone the reduction of rates or introduction of new services.

Limited Business Hours and Idle Facilities

As at present carried on, the trans-Atlantic cable business is practically all flash service, i. e. instantaneous. Owing to the difference in time, there are only a few business hours of the day common to both sides and during these hours at least 75% of the cable business is done. This is demonstrated by the accompanying chart.

In the interests of international business nothing should be done to interfere in any way with the so-called flash or instantaneous service, and the lines should be kept clear to accommodate such messages during the few business hours common to both countries; but to continue to confine the cables to this class of service, as at present, will utilize only about 25% of the existing capacity of millions of property and places on that limited service all the capital, maintenance and operating charges.

The limited time and the character of the business, if best results are to

be obtained, demand direct cable circuits between principal centres of the two sides of the Atlantic, as well as special circuits devoted to special business.

Efficient Service Requires Sufficient Facilities

To meet these requirements it is essential not only that there be at all times sufficient cable facilities, under one control, but that they should be operated interchangeably with each other and in close physical connection with land lines as one system. Ample spare facilities are necessary to provide against the very frequent cable interruptions.

Neither the Western Union nor any one of the companies of the Western Union group has, independently of the others, facilities enough to handle the business which at times any one company might be called upon to take care of, because of some particular rush of business, or because of some cable interruption. Nor could any one company furnish all the direct circuits necessary for efficient service, although the combined facilities of these companies are ample if they could be used supplementarily to each other and interchangeably.

As it is, each company operates its own cables through separate and distinct offices and under separate and distinct management. All interchange of business is by actual transfer of the business from one company to the other, with the consequent delay and interruption of a service in which seconds are valuable.

Daily and Week-end Cable Letters

So soon as the proposed arrangement goes into effect, the Western Union purposes, with the consent of the British Post Office Department, to introduce at least two new features or services in addition to the proposed deferred rate—the

DAILY CABLE LETTER and the WEEK-END CABLE LETTER

at a very low rate for cable service only. This will enable the public to save the six to eight days consumed in the trans-Atlantic passage of mails.

Monopoly of Cable Business Impossible

There is no cable monopoly possible. The three systems—the Western Union, the French and the Mackay—will continue to exist.

The Mackay Companies is a holding organization with no physical property, but exercising through stock ownership, lease or contract, operating control of various companies owning land lines and cables which make up the Mackay System. Through this control all the various properties are operated as one system to great advantage in service over what could be given by these same companies if operated separately.

The French cables form another system.

The Western Union System, under the proposed arrangement for one operating control over the present segregated units, will be enabled to make two distinct advances in the trans-Atlantic cable business:

1—BETTER SERVICE. This will be insured by more efficient and economical working resulting from single direction over the operations of both cables and land lines.

2—PUBLIC ADVANTAGES. The greater part of the cable capacity has been and is now unutilized. It will continue to lie dormant and unutilized under existing conditions and traditions. The Western Union purposes to make these wasted facilities useful to the public by means of new kinds of cable service.

In addition, the Western Union intends to nationalize its land lines by opening them to all trans-Atlantic cable companies.

MORE EVIDENCE

It is Coming in Rapidly in Brainerd

Evidence on the following subject will prove of interest to every Brainerd reader. So many people go through the same experience daily. This public statement should be proof positive to every wavering doubter. Read it carefully.

About a year ago I was suddenly taken with such a severe pain in the small of my back that I had to stop work and go to bed. Medicine relieved me somewhat and I got out in a few weeks, but I still suffered severely. Someone finally advised me to try Doan's Kidney Pills and I procured a supply from a local drug-gist store. The contents of a few boxes restored me to good health and corrected all the symptoms of my complaint. I am confident that Doan's Kidney Pills will act just as satisfactorily in other cases of kidney trouble." (Statement given September 1, 1908.)
